

Are You Saving Enough for Your Child's College Education?

Please join us for an informative event.

There's no denying the benefits of a college education, especially the ability to compete in today's competitive job market. But every year, college costs continue to increase, often at twice the rate of general inflation. That's why it's so important to start saving now.

In this seminar on College Planning, you'll learn:

- How much college will cost in the future
- Tax-advantaged ways to save for college, including 529 plans and Coverdell education savings accounts
- The role of financial aid, including how need is determined and how assets are classified for federal aid purposes
- Other ways to fill the college funding gap

You'll also receive a free workbook created just for this presentation. The workbook contains key information, worksheets, and questions to help you remember important points from the seminar.
