Will You Have Enough to Retire Comfortably?

Please join us for an informative event.

Most of us imagine retirement as a happy time, a reward for a lifetime of hard work, full of possibility and potential. We have good reason to see retirement in a positive light. Americans are living longer, healthier lives than ever before. In fact, for some of us, retirement will make up a full third of our lives. Of course, this means that our retirement assets will have to do more for us over a longer period of time. This makes planning for our retirement essential.

In this seminar on Retirement Basics, you'll learn:

- How to put together a retirement road map
- Factors that influence when you should retire and how long your retirement could last
- How to "crunch the numbers" by estimating your retirement expenses and retirement income, while factoring in inflation and taxes
- How to use tax-advantaged savings vehicles like IRAs and 401(k)s

You'll also receive a free workbook created just for this presentation. The workbook contains key information, worksheets, and questions to help you remember important points from the seminar.
